MOBILE WALL

DV420

In ogni ufficio le persone interagiscono attraverso la tecnologia e collaborano, con arredi multifunzionali, in ambienti che possono essere reali o virtuali, destinati a piccole o grandi riunioni, in luoghi aperti o chiusi. DV420-Mobile Wall è un carrello portamonitor, autoportante, su ruote con freno, progettato per fungere anche come elemento divisorio degli spazi. Rappresenta il simbolo del lavorare in modo flessibile, definendo nuovi layout, ottimizzando e riconfigurando gli spazi in luoghi di formazione o meeting room. La struttura in metallo verniciato è disponibile in H 180 e L 120 cm, ed entrambi i lati possono essere personalizzati con supporti per monitor o lavagne. È dotata di 2 ripiani centrali fissi e due pratici contenitori metallici posti alle estremità. Ai fianchi, è possibile applicare alcuni accessori quali mensole, portapenne o ganci appendiabiti. Una specifica canalina verticale, calamitata alla struttura, consente di celare i cavi elettrici. Grazie alla sua flessibilità, DV420-Mobile Wall è in perfetta sintonia con i requisiti mutevoli del mondo del lavoro moderno.

In every office, people interact through technology and collaborate, with multifunctional furniture, in environments that can be real or virtual, for small or large meetings, in open or enclosed spaces.

The DV420-Mobile Wall is a free-standing monitor trolley, on castors with brakes, designed to also function as a space divider. It represents the symbol of flexible working, defining new layouts, optimising and reconfiguring spaces in training or meeting rooms.

The painted metal frame is available in H 180 and W 120 cm, and both sides can be customised with supports for monitors or whiteboards.

It is equipped with 2 fixed central shelves and two practical metal containers.

Some accessories such as shelves, pen holders or clothes hooks can be attached to the sides.

A special vertical cable duct, magnetised to the structure, allows the hiding of electrical cables.

Thanks to its flexibility, the DV420-Mobile Wall is perfectly adapted to the changing requirements of the modern working world.
